

# Rafic Hariri School of Nursing (HSON)

Undergraduate Program

**Officers of the School**

Fadlo R. Khuri	President of the University
Zaher Dawy	Provost
Samar Nouredine	Dean of the Rafic Hariri School of Nursing
Nuhad Yazbik-Dumit	Associate Dean for Academic Affairs
Bradley Jon Tucker	Registrar
Antoine Sabbagh	Director of Admissions
Lokman Meho	University Librarian

**Faculty**

Convener/Graduate Division	Honein, Gladys
Coordinator, PhD Program:	Yazbik-Dumit, Nuhad
Chair of the online working group at HSON	Yazbik-Dumit, Nuhad
Director, blended MSN program in Nursing Administration and Management:	Abi Abdallah Doumit, Myrna
Director, Graduate Online Diploma in Nursing Administration and Management:	Younan Sabbagh, Lina
Director of the professional diploma in nursing education:	Abi Fakhr, Lina
Coordinator, MSN Nursing Administration and Management Track (blended):	Yazbik-Dumit, Nuhad
Coordinator, MSN Adult-Gerontology CNS Track:	Massouh, Angela
Coordinator, MSN Psychiatry and Mental Health CNS Track:	Farhood, Laila
Coordinator, MSN Community and Public Health CNS Track:	Honein, Gladys
Convener/Undergraduate Division:	Gharibian Adra, Marina
Coordinator, Accelerated Programs:	Madi, Dina
Director, Continuing Education and Off-shore Programs:	Massouh, Angela
Professors:	Farhood, Laila; Nouredine, Samar; Yazbik-Dumit, Nuhad
Associate Professors:	Abi Abdallah Doumit, Myrna; Fares, Souha; Honein, Gladys; Sukkarieh, Ola
Clinical Associate Professors:	Madi, Dina; Adra, Marina; Abi Fakhr, Lina; Younan Sabbagh, Lina
Assistant Professors:	Massouh, Angela; Puzantian, Houry; Dakessian, Silva

Clinical Instructors:	Abdallah, Nour; Avedissian, Tamar; Damianos, Danielle; Succar, Emilie, Malkedjian, Sarine Rita
Instructor:	Chedid, Rana
Part time clinical instructor:	Daibess, Nadine
Visiting Professor:	Kordahi Badr, Lina

### School Administrative Support

Executive and Financial Officer:	Chami, Diana
Student Services and Career Planning Officer:	Abdallah, Mira
Skills and Simulation Lab Coordinator:	Naser, Joyce
IT Manager, Faculty of Medicine and Hariri School of Nursing:	Itani, Maher
IT Field Support Technician:	Karout, Toufic
Medical Librarian:	El Zein, Ola

## Historical Background

The School of Nursing, founded in 1905, was the first nursing school in the Middle East. The five-year Bachelor of Science in Nursing program, established in 1936, was replaced in 1964 by a four-year program leading to the degree of Bachelor of Science in Nursing. Students entering the school as sophomores graduate in three calendar years. The RN-BSN program was reactivated and launched in 2003. The Masters of Science in Nursing (MSN) program was launched in 2003. The Bachelor of Science in Nursing program (BSN) and the MSN program are registered by the Department of Education of New York State, HEGIS codes 1203.00 and 1203.10, respectively. The BSN and MSN programs are accredited by CCNE, the Commission on Collegiate Nursing Education, in the USA. The AUB School of Nursing is the first School of Nursing outside the US territories to be accredited by CCNE. The PhD program, HEGIS code 1203.12, was launched in the academic year 2018-2019. Effective September 2018, Hariri School of Nursing became the seventh independent faculty at AUB.

## Mission

The mission of the School of Nursing is to promote and maintain the highest educational standards of excellence, integrity, and professionalism in nursing, following the American model of nursing education and practice. The school aims to provide learning opportunities that will enable students to develop into competent nurses who, guided by ethical principles, respect cultural diversity while coordinating and delivering high-quality, compassionate nursing care in Lebanon and the region. The faculty believes education is an interactive process between faculty and students with both taking responsibility for active learning. The baccalaureate program, drawn primarily from the humanities, sciences, and caring disciplines, focuses on the use of nursing theory and research as a basis for practice. The master's program focuses on preparing nurses for advanced nursing practice roles and is based on the use and generation of research-based knowledge to guide practice. The PhD program in Nursing Science aims to provide rigorous training for research careers in

nursing and healthcare. The program is intended to produce research scientists who will make significant and original contributions to nursing practice and healthcare delivery. Nursing students at AUB learn to think critically, develop professional attitudes and leadership skills, and appreciate the value of life—long learning and freedom of speech.

## Vision

The Rafic Hariri School of Nursing aspires to become the leading school of nursing in Lebanon and the region and nationally and internationally recognized for excellence in education, research, and service.

The school is committed to offering cutting-edge, culturally relevant and internationally recognized graduate and undergraduate education, fostering life-long learning and scholarship, developing leaders in nursing and health care, and attracting a competent and culturally diverse student body.

## Undergraduate Program Outline

### Admission

Students holding diplomas from a 12-year secondary school may gain admission to the School of Nursing as first year nursing students (see required courses at the freshman level). Freshman students wishing to transfer to the School of Nursing from AUB or another institution may gain admission provided they complete the required freshman courses.

# Bachelor of Science in Nursing (BSN)

The School of Nursing follows the admission policies and criteria of the university. For further details, see the section on Admissions of this catalogue.

## Accelerated Programs

### TS/LT-BSN

The curriculum is designed to permit the graduates of TS/LT in nursing to pursue the degree of Bachelor of Science in Nursing as per the university entrance requirements. The time limit for completion of the program should not exceed six calendar years. A selected number of nursing courses may be validated if applicable.

Preferred requirement for admission to the program is one-year experience in addition to the University entrance requirement. The applicant should provide the TS/LT governmental exam certificate and license to practice nursing from the Ministry of Public health. The candidate may be asked to have an interview with the program convener or a designated faculty member.

## BT-BSN

According to the decree no. 855 dated 01/07/2015, issued by the Ministry of Education and Higher Education, holders of the technical baccalaureate (BT) are eligible for admission to similar fields as that of BT. In this case, holders of BT nursing may apply to any health-related major.

Those applying to the BSN program should complete the following remedial/pre-requisite freshman level courses prior to the BSN II year:

- 3 credits in Mathematics (choose one of: MATH 101, MATH 102, MATH 203, MATH 204)
- 3 credits in Chemistry (CHEM 101)
- 3 credits in Biology (BIOL 101)
- 3 credits in Physics (PHYS 101, 103 or 200)

## BS/BA-BSN

The School of Nursing accelerated program is designed for individuals who have a BS/BA in fields other than nursing. The streamlined curriculum permits students to earn a BSN in 24 months. Students who graduate from this program are entitled to sit for the National Colloquium Exam to become registered nurses. The admission to the BS/BA-BSN program requires the following:

- BS/BA degree in a field other than nursing
- A minimum GPA 3.0 including prerequisite courses and general education requirements
- Completion of the following prerequisite courses prior to admission: ENGL 204, PSYC 201, Biostatistics course, PSYC 210, SOAN 201, and four elective courses in humanities

Applications are available online through the AUB website. Students are urged to submit course syllabi and course descriptions for courses requiring equivalence.

## Transfer from the Freshman Class

Transfer students from the freshman class of the Faculty of Arts and Sciences may apply to the sophomore year at the Rafic Hariri School of Nursing. To be eligible for admission, the applicant must have:

- completed at least 26 freshman credits prior to their registration in the fall or spring term and achieved a minimum cumulative GPA of 2.7.

## Transfer from Other Faculties at AUB

Transfer students from other faculties at AUB may apply to the BSN program. To be eligible for admission, the applicant must have:

- completed at least 24 credits prior to their registration in the fall or spring term and achieved a minimum cumulative GPA of 2.7.

## Transfer from Other Universities

Transfer students from other universities in Lebanon or abroad may apply to the junior year. To be eligible for admission, the applicant must have:

- completed 30 sophomore credits (1 year) or more prior to their registration in the fall or spring term,
- achieved a minimum cumulative average equivalent to the AUB GPA 2.7,
- submitted the most recent transcript of their grades,
- and met the Readiness for University Studies in English.

Once a student is accepted, the assigned academic adviser follows up with the student on credit transfer and course equivalences. The student should submit course syllabi and course descriptions for courses requiring equivalence. Credits transferred from other institutions will show as 'Pass' on the AUB transcript and will not be part of the calculation of the GPA (with reference to the General University Academic Information). A grade of (C+) or above is required in the major courses for transfer. Furthermore, accepted students must complete the final 45 credits at AUB.

## Dual Degree

The School of Nursing follows the requirements set by AUB to allow students to pursue a dual degree. For further details, see the section on General University Academic Information.

## Courses

### Course Numbers

Nursing courses are numbered according to level and they normally follow a sequence. See curriculum for the Bachelor of Science in Nursing and course descriptions on page 680.

### Numbers Following Course Titles in the Course Description

- The first number following the title of a course indicates the number of class hours per week.
- The second number indicates the clinical hours required each week.
- The last number indicates the number of credit hours applied toward graduation.

### Frequency of Courses

Courses marked fall/spring/summer are offered accordingly during each academic year.

## Graduation Requirements

All recommendations for graduation are made by vote of the faculty upon the recommendation of the academic committee.

To be eligible for graduation with the degree of Bachelor of Science in Nursing, the following requirements must be met:

- completion of the prescribed program of study with a minimum of 103 credits after the freshman class or equivalent, and 91 credits for those entering as registered nurses (excluding the remedial courses mentioned under section TS/LT-BSN program)
- an overall GPA of 2.3, excluding freshman courses.
- The degree program must be completed within a maximum of six years, divided as follows, two calendar years for BSN II, two calendar years for BSN III, and two calendar years for BSN IV.
- Please refer to the General university academic information for more details.

All undergraduate transfer students from AUB or from other recognized institutions of higher learning to the School of Nursing need to complete the required prerequisites and all required nursing courses. A minimum residency period of one year or 30 credits for within AUB transfers and 45 credits for transfers from outside must be completed at AUB.

Course credits pertinent to the nursing curriculum may be transferred according to criteria set by the admission and academic committees.

## Licensing

Graduates are qualified for the licensing examination in Lebanon (Colloquium). Non-Lebanese graduates cannot practice Nursing in Lebanon, unless permitted by the Order of Nurses in Lebanon in exceptional situations.

## Academic Rules and Regulations

For information on Academic Advisers, Categories of Students, Correct Use of Language, and Graduation with Distinction and High Distinction, see General University Academic Information in this catalogue.

## Attendance

### Classes and Laboratories

- Students are expected to attend all classes, laboratories, and any other required activities. Absence by students, whether excused or not, from any class or laboratory session does not excuse them from their responsibility for the work done or from any announcements made during their absence.
- Students who are absent from more than one fifth of the number of lectures of any course during a term lose all credit for the course. Please refer to the General University Academic Information for more details.
- Students may not be excused from laboratory and field requirements. All missed clinical and field requirements must be made up for. In case of repeated absences from clinical courses, over one fifth of the total hours, the student may be asked to drop the course.

### Examinations and Quizzes

Students are not allowed to be absent from announced final examinations and quizzes unless they present an excuse considered valid by the coordinator of the course. The course coordinator may then require the student to take a makeup examination.

Students taking non-nursing courses in other faculties of the university are required to

follow the attendance regulations of that faculty.

Students who need special accommodation during exams should get a letter from the Accessible Education Office.

## Grading System

Refer to the grading system, under “General University Academic Information” section in the catalogue.

The passing grade for all nursing major courses is C+, except for NURS-203 (passing grade is D).

## Incomplete Grades

- Incomplete course work will be reported as an “I” followed by a numerical grade reflecting the evaluation of the student available at the end of the term. This evaluation is based on a grade of zero on all missed work.
- To secure permission to complete the work for a course, a student must submit a valid excuse to the instructor of the course and the academic committee within two weeks from the date of the scheduled final exam for the course.
- Students permitted to complete work for a course must do so within four weeks of the start of the next regular term. After the incomplete work is done and evaluated by the faculty member, a grade change will be considered by the Dean of the school (upon the recommendation of the program convener) and a new grade reported to the Office of the Registrar.
- If no valid excuse is presented and the work, if permitted, is not completed within the time limits specified above, the “I” will be dropped and the letter grade available becomes the final grade in the course.
- For the purposes of averaging, the letter grade is used until it is changed in accordance with the grading system set above.

## Student File Reactivation

To maintain student status, individuals are required to register for each term, except during the summer session unless required by the program. Under special circumstances, students may withdraw from a semester upon the advisor’s recommendation. Those who opt for this action are not obligated to register again; however, they must fill a reactivation/readmission petition if they intend to complete the program requirements within the designated time frame.

## Promotion

Students shall be promoted at the end of the summer session after completion of 30 or more credits beyond the requirements from the previous level. However, students who register in September and who lack 6 or fewer credits for completion of a class will be registered in the next higher class at the discretion of the academic committee. In order to be promoted, students must attain a minimum average of (GPA: 2.0) at the end of the second regular term (sophomore year) and (GPA: 2.3) in the following years. Promotion of BSN students based on earned credits: Sophomore (N2) nursing students are promoted to N3 if they complete 30 earned credits; Junior (N3) nursing students are promoted to N4 if they complete 67 earned credits.

## Placement on the Dean's Honor List

To be placed on the Dean's Honor List at the end of a term, a student must carry at least 12 credits of courses, have passed all the courses of the term, attained in all courses an overall average of (GPA: 3.7) or be ranked in the top 10 percent of the class and have an overall average of (GPA 3.3), and not have been subjected to any disciplinary action within the university. Please refer to the General University Academic Information for more details.

## Graduation with Distinction and High Distinction

The School of Nursing follows the academic rules and regulations set by AUB to recommend the graduation of students with Distinction and High Distinction. For further details, see the section on General University Academic Information.

## Failures and Deficiencies

### Placement on Probation

Follow AUB Academic rules and regulations.

### Removal from Probation

Follow AUB Academic rules and regulations.

## Repeating Courses

A student may repeat any course with the consent of the adviser and course coordinator.

- All required courses that a student fail must be repeated. No course may be taken more than three times including withdrawal from the course.
- When a course is repeated, the highest grade obtained will be considered in the calculation of the (Overall GPA).
- A student who fails or withdraws from a course may be delayed from graduating.

## Dismissal from the BSN Program

A student may be dismissed by vote of the faculty upon the recommendation of the academic committee in any of the following cases:

- failure to remove probation within two terms
- failure in one-third or more of the load attempted during that year and failure to attain the minimum yearly average (GPA)
- not making satisfactory academic progress, having not shown sufficient professional promise, or having behaved in a manner below the norms expected by the school
- Failure to meet clinical requirements as stipulated in the nursing courses syllabi
- Failure to satisfy the requirements of the repeated year

Students who are dropped from the program will be placed as majorless for two consecutive

regular terms to secure a transfer to another major by the third term of being majorless or risk being dismissed from the University. Please refer to the General University Academic Information for more details.

## Application for Readmission

When, in accordance with university regulations, a student is dropped, the implication is that the student is not qualified to continue her/his education at the School of Nursing. For consideration for readmission please refer to General University Academic Information.

## Disciplinary Action

A student engaging in academic misconduct, such as cheating on examinations or plagiarism, will be referred to the Student Affairs Committee and the Dean.

## Awards

BSN students can be nominated for an award. A list of awards is found below for your reference. A student can nominate himself or herself. In addition, an adviser or a faculty member can nominate a student for an award. Eligible nominees should:

1. Submit a nomination form
2. Have a minimum overall average of 3.2 or 80/100
3. Not have received a Dean's warning
4. Be recommended by his/her adviser
5. Have contributed to the university life
6. Portray a Professional Image

## HSON Florence Nightingale Award

The HSON Florence Nightingale Award is a cash award granted to a senior student on the basis of academic achievement, professional integrity, seriousness of purpose, contribution to professional and university life, and willingness to join AUBMC after graduation.

## Penrose Award

This is a non-cash honorary award presented on the basis of scholarship, character, leadership, and contribution to university life to an outstanding graduate of the school.

## Janet Haddadin Nursing Award

The Janet Haddadin award is a cash award granted to a graduating undergraduate nursing student with the highest Cumulative GPA"

## Salma Mansur Jurdak Excellence Award in Nursing

The Salma Mansur Jurdak Excellence award is a cash award granted to a graduating undergraduate nursing student with top academic achievement and demonstrated dedication to the profession

## Women's Auxiliary Awards

WAA are certificate awards granted to senior students who meet the following criteria:

- academic achievement
- professional integrity and seriousness of purpose
- contribution to professional and university life
- willingness to join AUBMC after graduation

## Lions Award

The Lions Award is a non-cash award granted to an outstanding student who has been commended by the faculty of the School of Nursing.

## The Rouzan Al-Najjar Excellence Awards in Nursing

This award is a monetary award presented by the Yafa Foundation. It is given to three students (one senior, one junior and one sophomore) who are the most academically qualified Arab Nursing student at the end of their senior/junior/sophomore year of his/her studies, who shows outstanding academic and professional promise, and intent to work in Nursing after graduation.

## Curricula

### Bachelor of Science in Nursing

#### First Year

Freshman curriculum requires completion of 30 credits. The following courses are required: ENGL 203 (3cr), Humanities (6cr), MATH 100 (3cr), MATH 101 (3cr), CHEM 101 (3cr), CHEM 101L (1cr), BIOL 101 (3cr), Natural Sciences (3cr), Social Sciences (3cr), & elective of any freshman course other than SOAN 201 and PSYCH 201.

## Course Descriptions

### NURS 200 Introduction to Nursing 2.0; 2 cr.

This course is designed to introduce major concepts that are basic to nursing practice. It familiarizes the student with the nature, history and trends of nursing and the nurses' role in meeting health care needs of society in different settings. This course focuses on concepts related to the nurse, client and health care environment, professional nursing practice, family development and human needs. It uses a combination of face to face (f2f) modules (in class meetings) and online modules (online activities). Fall and Spring.

### NURS 201 Introduction to Nursing Practice 1.3; 2 cr.

This course introduces students to concepts and interventions basic to nursing practice. The course uses the nursing process as the organizing framework, and the concepts of health, nursing, client, and environment are integrated throughout. Performance of basic client care skills are emphasized, including the scientific rationale for both health promoting and health restoring nursing interventions. Prerequisites: NURS-200 and HUMR-244.

### NURS 202 Health Assessment 1.3; 2 cr.

The course focuses on assessment of health of adults and older adults and provides the student with the knowledge and skills needed to assess the health status of adults and older adults. Emphasis is placed on assessment of the physical, psychosocial, and cultural dimensions of the individual. The course includes lectures and practical experiences in the assessment of individuals to identify normal and abnormal findings. Corequisites: NURS 201 and HUMR 248. Prerequisite: NURS 200. Spring.

### NURS 203 Biostatistics for Nurses 3.0; 3 cr.

This course is designed to introduce the BSN students to the concepts and applications of statistics in the nursing field. The course starts with a general overview of probability, types of data, and ways to summarize and present them. The course then introduces the concept of hypothesis testing and the methods to carry them. Applications on the computer using the SPSS software will be discussed in class. Spring.

### NURS 205 Foundation of Professional Nursing 2.0; 2 cr.

In this course students will explore recent issues affecting the nursing profession in terms of role expansion of the nurse. The nursing process is covered as an organizing framework for nursing practice.

### NURS 210 A Pathophysiology I 1.0; 1 cr.

This course relates normal body functioning to the physiologic changes that occur because of disease, as well as the body's remarkable ability to compensate for these changes. Emphasis is placed on the following: Introductory concepts of Health, disease, pathology and pathophysiology, Inflammation, Cardiovascular and Respiratory pathophysiology, Neoplasia, Immune system, Hematologic, Gastrointestinal and Musculoskeletal pathophysiology. Prerequisites: NURS 201, NURS 202, BIOC 246, HUMR 248, and MBIM 237. Fall.

### NURS 210 B Pathophysiology II 1.0; 1 cr.

This course is a continuation of NURS 210A. Emphasis is placed on the following: Genetics and Genomics in Nursing, Neurologic, Sensory, Endocrine, Renal, Integumentary, Hepatic and Biliary pathophysiology, as well as the Infectious Process. Prerequisites: NURS 210A, Spring.

[NURS 300 Nursing Care of Adults and Older Adults I, Theory and Practicum 2.2.6; 5 cr.](#)

This course covers scientific principles in the care of adults presenting with medical-surgical problems. It builds on the framework of man, environment, health and nursing. The practicum provides students with opportunities to apply knowledge in clinical practice. Prerequisite: NURS 201 and NURS 202; corequisites: PHRM 240 and NURS 210A. Fall.

[NURS 302 Nursing Care of Adults and Older Adults II, Theory and Practicum 2.2.6; 5 cr.](#)

This course is a continuation of NURS 300. Emphasis is placed on the following dysfunctions: metabolic and endocrine, neurologic, eye ear nose and throat, renal and urinary, integumentary, hepatic and biliary, rheumatic, care of the older adult as well as the infectious process. The clinical component reinforces transfer of learnt scientific knowledge to practice fostering effective communication and safe nursing care. Prerequisites: PHRM 240 and NURS 300; corequisite: NURS 210A. Spring.

[NURS 304 Nursing Care of the Expectant Family, Theory and Practicum 2.2.6; 5 cr.](#)

This course focuses on reproductive health, from conception to the neonatal period. The content stresses the nurse's role in reproductive health and risk management. The practicum provides clinical application of knowledge, focusing on women in the childbearing cycle, the newborn, and families as clients in the hospital and outpatient settings. Prerequisites: NURS-201 and NURS 202; corequisites: PHRM 240 and NURS 210A. Fall.

[NURS 306 Nursing Care of Children, Theory and Practicum 2.2.6; 5 cr.](#)

This course focuses on the care of children, from infancy through adolescence. Topics include ambulatory and in-patient care, as well as primary, secondary and tertiary care. The practicum provides the students with opportunities to assess health needs of children based on knowledge of growth and development, and to implement nursing care, based on the nursing process. The roles of nurse as teacher, patient advocate and nurturer are emphasized. Prerequisites: PHRM 240, NURS 304, and PSYC 210 or EDUC 225; corequisite: NURS 210B. Spring.

[NURS 307 Practicum I 0.6; 0 cr.](#)

This course is designed to provide students with opportunities to practice advanced nursing skills learned in previous nursing courses, and builds on experiences gained in the sophomore and junior years. Prerequisites: NURS 302 and NURS 306. Summer.

[NURS 308V Maternal Child Nursing, Theory and Practicum 3.8; 6 cr.](#)

This course focuses on the childbearing family from conception to the newborn period as well as primary and tertiary care of the ill child from infancy to adolescence. The clinical component emphasizes the application of knowledge acquired in class in the care of the childbearing family and children with illnesses from infancy to adolescence. Co-requisite: PSYC 210 or EDUC 225.

[NURS 311V Nursing Care of Adults and Older Adults, Theory and Practicum 3.8; 6 cr.](#)

Facilitates the development of advanced knowledge and application of scientific principles in the care of clients representing medical-surgical problems of the adult population. This course builds on the framework of person, environment, health status, and nursing. The clinical component provides an opportunity for advanced clinical application of concepts discussed in class in the care of patients and their families.

[NURS 312 Mental Health and Psychiatric Nursing, Theory and Practicum 3.6; 5 cr.](#)

The holistic philosophy of clients as bio-psycho-social entities is stressed in both mental health and mental illness. General theories of psychiatry and mental health therapies are presented. The course provides clinical experience in psychiatric-mental health settings.

Emphasis is placed on the quality of coping abilities of clients in varying degrees of stress and crisis. Opportunities are provided for students to work collaboratively with multi-disciplinary health teams to assess, plan, and implement relevant nursing interventions in both mental health and illness. Prerequisites: SOAN 201 and PSYC 201. Fall and Spring.

[NURS 313 Leadership and Management in Nursing, Theory and Practicum 3.6; 5 cr.](#)

This course discusses concepts of leadership, management, creativity, analysis, power, change, and evaluation. Students investigate, analyze, and conceptualize the different modalities of leadership, utilizing nursing and management theories. The practicum allows the student to explore his/her role as a potential leader. The learner observes and assists in the practice of different modalities of leadership and managerial skills in a variety of health care settings.

[NURS 314 Community Health Nursing, Theory and Practicum 3.6; 5 cr.](#)

The course provides knowledge in the broad area of the field of nursing, public health, and primary health care. The levels of prime concern are the small group, including the family and its individual members, and the large group, including the community. The focus of the clinical component is on the promotion and maintenance of high levels of health and well-being, and prevention of illness and disability. Fall and Spring.

[NURS 400 Critical Care Nursing, Theory and Practicum 2.2.4; 4cr.](#)

This course focuses on the care of clients with critical care problems. Emphasis is placed on cardiovascular and respiratory problems, neurologic disturbances, shock, sepsis, metabolic and endocrine imbalances, altered nutrition, renal failure, emergency and disaster nursing. The practicum provides opportunities to apply knowledge in clinical settings. Prerequisites: NURS 302 and NURS 307. Fall.

[NURS 402 Psychiatry and Mental Health Nursing, Theory and Practicum 3.6; 5 cr.](#)

This course covers the concepts of psychiatric and mental health disorders and emphasizes the role of the nurse in a psychiatric-mental healthcare setting, using both classroom and clinical instruction. Psychiatric nursing care transcends the bounds of mental hospitals to include general health care settings. Emphasis is placed on basic intervention strategies and the quality of coping abilities of clients in varying degrees of health and illness. Experiences in working with multi-disciplinary health teams is stressed in order to assess, plan, and implement relevant nursing interventions. Prerequisites: Senior standing, SOAN 201, and PSYC 201. Fall and Spring.

[NURS 404 Nursing Informatics 2.0; 2 cr.](#)

This course focuses on the history of health care informatics, basic informatics concepts, and health information management applications. The student progresses from developing knowledge of basic concepts and methods of health care informatics; to learning about specific information management applications in health care administration, practice, education, and research; and finally, to a hands-on experience with a specific application of his/her own choosing. Prerequisite: consent of instructor. Fall.

[NURS 405V Critical Care Nursing, Theory and Practicum 2.6; 4 cr.](#)

This course addresses the management of critically ill adults. Emphasis is placed on diagnostic reasoning, interventions, and outcome assessment in patients presenting with complex cardiovascular, respiratory, renal and metabolic problems, as well as trauma. The clinical component provides experiences where students apply concepts learned in class in critical care areas in the hospital. Prerequisite: NURS 311V.

NURS 406 Nursing Research 3.0; 3 cr.

Focuses on the process involved in the scientific approach and its application to nursing. Special emphasis is on the basic research steps, the research design, assessment measures, and data analysis with a focus on research utilization. Prerequisite: NURS 203. Fall. Senior Standing.

NURS 408 Community Health Nurses 3.6; 5 cr.

This course introduces students to the field of community health nursing. The primary target are individuals, families' communities. The competencies acquired in this course enable students through collaboration with other health professionals to provide care on a continuum from health promotion, prevention and maintenance of illness and disability. Prerequisite: SOAN 201; Senior standing. Fall and Spring.

NURS 410 Leadership and Management in Nursing, Theory and Practicum 3.6; 5 cr.

This course discusses how professional nursing incorporates the concepts of leadership, management, creativity, analysis, power, change, and evaluation. In this course students investigate, analyze, and conceptualize the different modalities of leadership, utilizing nursing and management theories. The practicum allows students to explore their role as potential leaders. Students observe and assist in the practice of different modalities of leadership and managerial skills in a variety of health care settings. Prerequisite: Senior standing. Spring.

NURS 411 Intensive Practicum in Area of interest 0.9; 0 cr.

This course focuses on preparing students towards their transition to professional nursing practice. Opportunities are provided for students to synthesize knowledge and refine skills acquired in the planning, provision and evaluation of nursing care, communication, and interdisciplinary practice in a clinical area of their interest. Consent of instructor is required for the site of clinical practice. Prerequisite: Senior standing. Spring.

IPEC 300 Interprofessional Education and Collaboration 1.0; 1 cr.

In this course, students from nursing and public health will learn how population health is best promoted and safe; patient-centered care is best provided through a collaborative health teams approach. This is a required course for senior undergraduate Nursing and Master of Public Health students. The course is case-based on health topics across the life-course on which inter-professional collaboration is necessary. Discussion groups combining public health and nursing students will be moderated by faculty members from the two professions. Students will learn the roles and responsibilities of other health professions and how to function in inter-professional teams. Prerequisites: Senior Standing.
