Mission Statement

The undergraduate program in Philosophy provides students with a knowledge of key historical and contemporary philosophers and philosophical problems, together with a range of responses to those problems. They promote respect for clarity, truth, critical reflection and rational argument. They promote independence and of thought rooted in a fair-minded understanding of opposing views. They strive to equip students with the knowledge and skills needed to navigate relevant portions of the contemporary philosophical terrain; competence at critical analysis; and the ability to write about abstract issues in a clear, nuanced and compelling manner. Both programs also seek to impart an awareness of the application of philosophical thought to other academic disciplines or to matters of public interest, encouraging students to apply their philosophical skills more widely.
